ABDUL JABBAR

SENIOR FRONTEND DEVELOPER

Zanesville Ohio | +1 216 452 8250 | abjabbar.work@gmail.com

PROFILE SUMMARY

Dedicated Full Stack Developer with 10 years of progressive experience in designing and implementing innovative web applications. Expertise spans front-end, with a strong emphasis on problem-solving and collaboration. Proven ability to translate complex business requirements into scalable and maintainable solutions.

PROFESSIONAL SKILL

ReactJS | NextJS | Angular | VueJS | React Native | NodeJS | Nest | Python | GO | Rest | GraphQL | gRPC | RPC | WSS MySQL |PostgreSQL | MongoDB | DynamoDB | Docker | K8s | Git | Nginx | Lua | Redis | Linux | AWS | GCP | Jenkins

TECHNICAL SKILL

PROGRAMMING

OOP / Design Patterns   MVC Architecture
Functional Programming   Serverless Architecture
Web Services (API, WSDL, JSON, SOAP, XML)

WEB RELATED

HTML5, CSS3, JavaScript (ES6+)
TypeScript
ReactJS, NextJS, Angular, VueJS, Svelte
Hooks API, Context API, Redux Integration
jQuery, VanillaJS, Lodash
Bootstrap, Tailwind CSS
Static Generation (SSG) & Server-side Rendering (SSR)
RxJS for asynchronous handling
Expo SDK for cross-platform apps

LANGUAGES

JavaScript, TypeScript, PHP, Python, Go
NodeJS, SQL, NoSQL

DATABASES

MySQL, PostgreSQL, SQL Server
MongoDB, DynamoDB, Redis

FRAMEWORKS

Laravel, CodeIgniter, Yii, Zend, Symfony,
AngularJS, ExpressJS
React Native, ExpressJS, NestJS
WordPress (Headless and Traditional), Shopify,
Joomla, OpenCart

SOFTWARE

Git, GitHub, GitLab, Bitbucket
Docker, Kubernetes (K8s), Jenkins
AWS, GCP, Azure
Figma, Adobe XD, Sketch, Photoshop for UI Design
Browser DevTools for debugging and optimization
Nginx & Apache for web server management

EDUCATION

Bachelor in Computer sciences   2008 - 2012
Texas State University, San Marcos, TX
Graduated with a comprehensive understanding of software development, computer systems, and programming. Engaged in various projects that honed my skills in full-stack development and prepared me for a successful career in the tech industry.

WORK EXPERIENCE

Senior Frontend Developer   2021 – Present
Blue laser digital, Westerville ohio
- Led development of responsive, high-performance web apps using ReactJS, NextJS, Angular, and VueJS to improve user experience.
- Enhanced data flow with Context API, Redux, and RxJS, optimizing real-time interactions.
- Boosted SEO and load times with server-side rendering (SSR) and static generation (SSG).
- Developed APIs with REST, GraphQL, and gRPC for smooth backend integration.
- Improved project outcomes with Agile collaboration, ensuring alignment with client goals.
- Streamlined CI/CD using Docker, Kubernetes, and Jenkins, reducing deployment cycles.
- Built scalable backends with AWS Lambda and NoSQL databases (MongoDB, DynamoDB).
- Mentored team members, fostering skill growth and adherence to frontend best practices.

Lead Frontend Developer   2017 – 2021
DIGITECH, Austin Texas
- Built modular UIs using ReactJS and VueJS, applying Hooks API and design patterns.
- Boosted code reliability by integrating TypeScript in large projects.
- Created real-time updates with WebSockets (WSS) and non-blocking I/O.
- Established reusable UI components and documented design patterns with Figma and Adobe XD.
- Integrated MySQL, PostgreSQL, and Redis to support data-driven UI elements.
- Optimized deployment via GitLab CI/CD, Docker, and Kubernetes.
- Developed cross-platform mobile apps with React Native and Expo SDK.
- Improved frontend speed with Tailwind CSS and Bootstrap, enhancing accessibility.

Frontend Developer   2013 – 2016
Open Tech Innovation, Dallas Texas
- Converted design mockups into responsive web pages with HTML5, CSS3, and JavaScript (ES6+).
- Developed SPAs using AngularJS for modular, scalable applications.
- Ensured cross-browser compatibility using Browser DevTools for debugging.
- Communicated with clients to refine UI and improve usability.
- Established modular architecture and Git for collaborative development.
- Enhanced user experience with custom plugins and enterprise-level UI features.

Intern and Junior Developer   2012 – 2013
Open Tech Innovation, Dallas Texas
- Started as a Web Development Intern, advancing to Web Developer with skills in HTML, CSS, and JavaScript.
- Converted static designs into dynamic web apps using jQuery, AJAX, and WordPress CMS.
- Balanced frontend and backend tasks, including database and API integration.
- Delivered projects on schedule using Agile practices and clear documentation.
